

Bugzone transforms the school grounds at Leigh & Bransford Primary School, Malvern

Background

Leigh & Bransford Primary School, Malvern is a small primary school with 105 children from ages four to ten spread over four classes.

Stuart Bill, Head teacher and Paula Morris, Governor were both very keen to include a pond in their excited school grounds. Paula is an early years specialist and a great advocate of the benefits of outdoor education.

Solution

Creative Pond Covers supplied a Bugzone Pond - a pond liner together with a safety cover.

Contractors installed the pond, much to the delight of the children who were exciting to see the diggers in action. The Bugzone pond quickly became an established environment.

Benefits

- The pond is based outside Class 2 where it is used regularly to support the curriculum
- Bugzone pond makes a great habitat, particularly where there is limited outdoor space, it will soon attract fascinating creatures and children can see life cycles and food chains in action
- Bugzone can be used across the curriculum can engage the children in subjects from Maths to ICT
